EPILOGUE

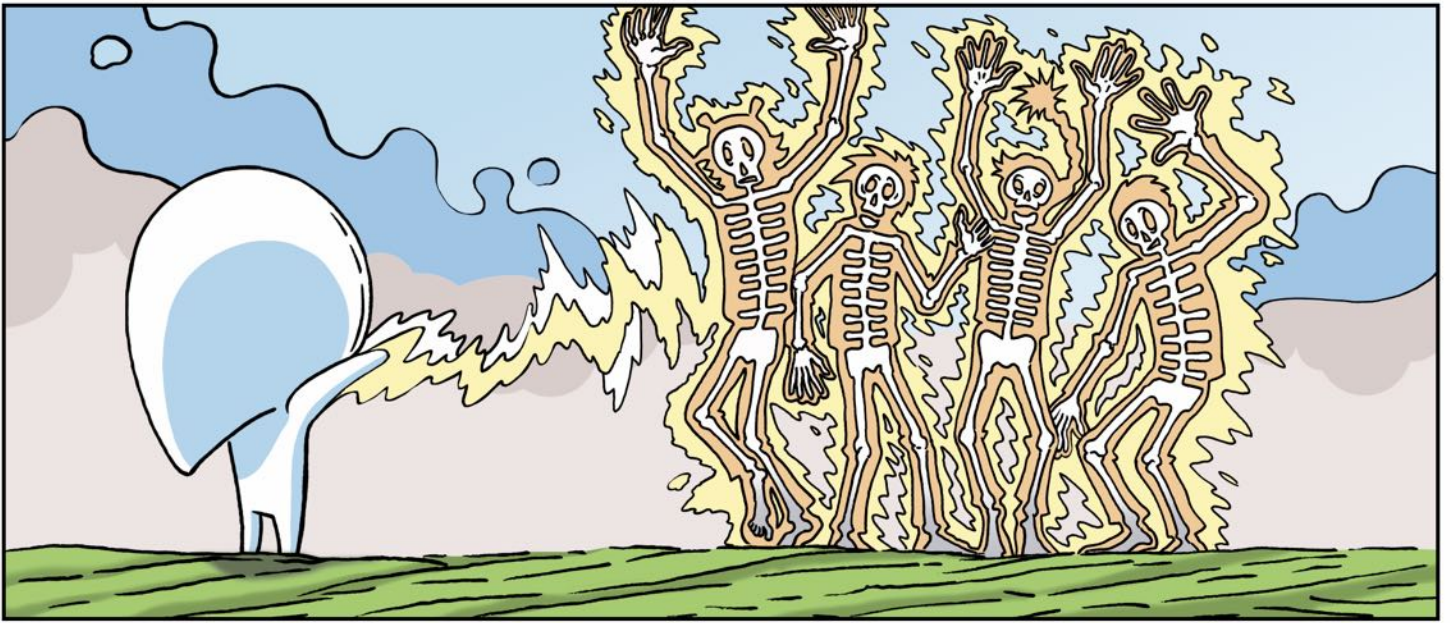

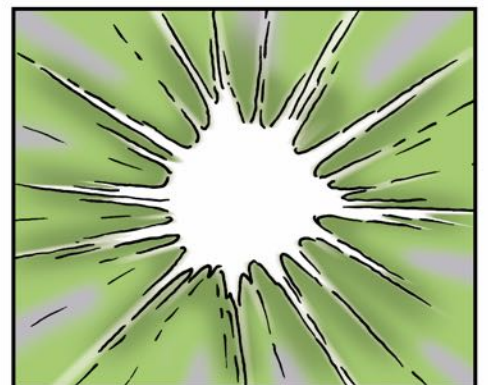

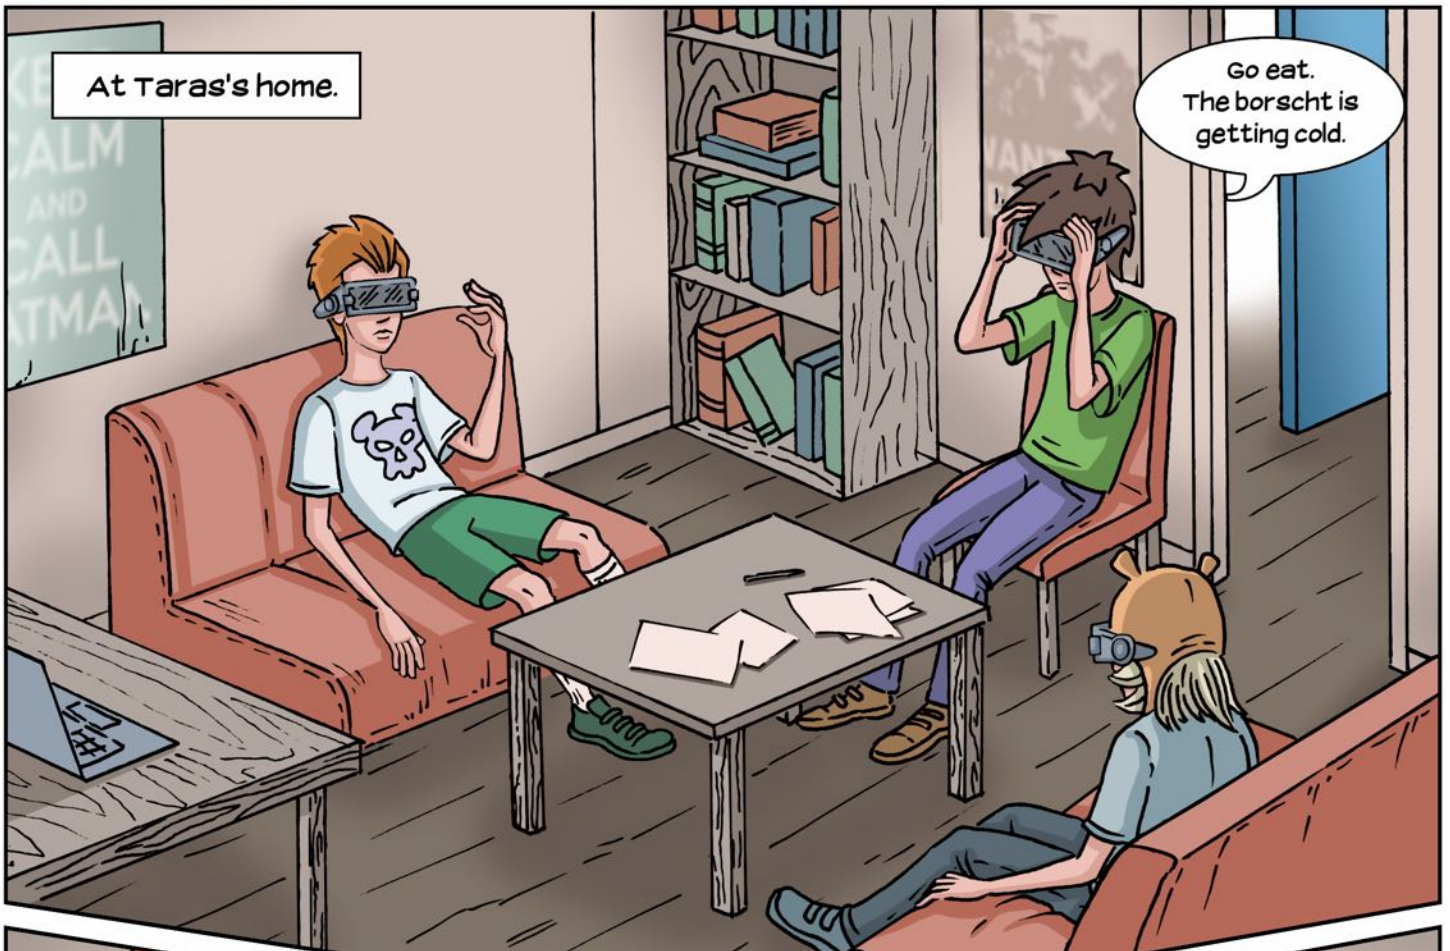

We did it!

Yahoo!

At Taras's home.

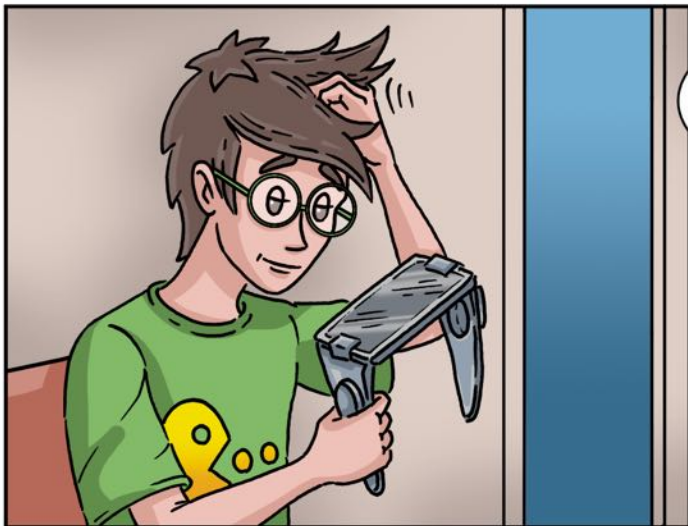

Go eat.
The borscht is
getting cold.

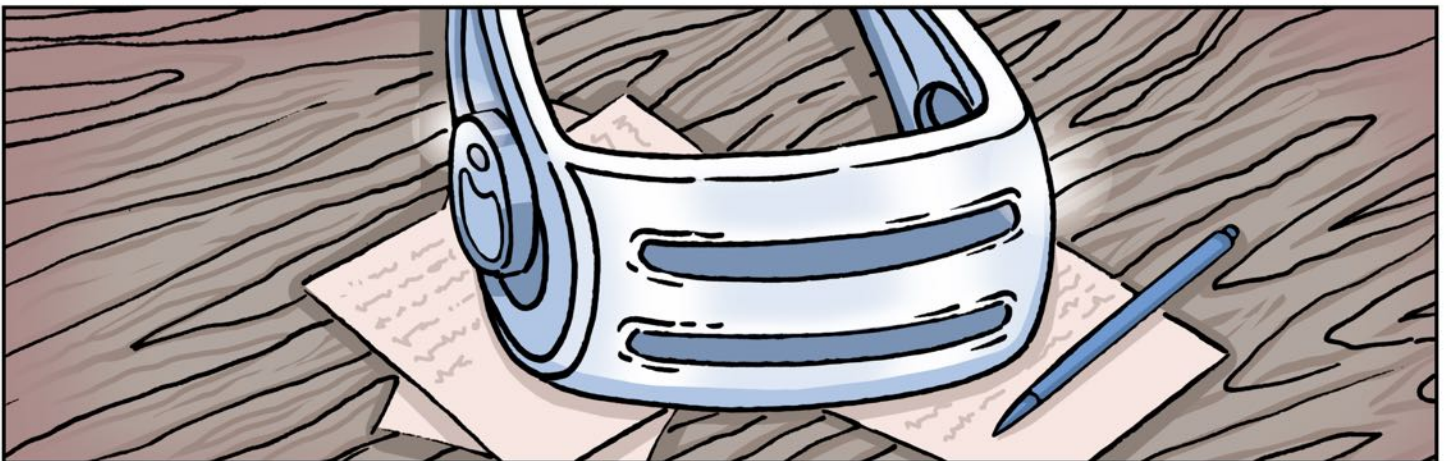

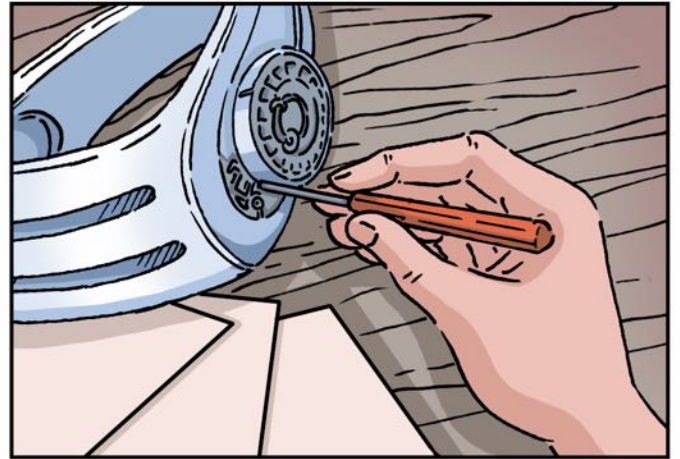

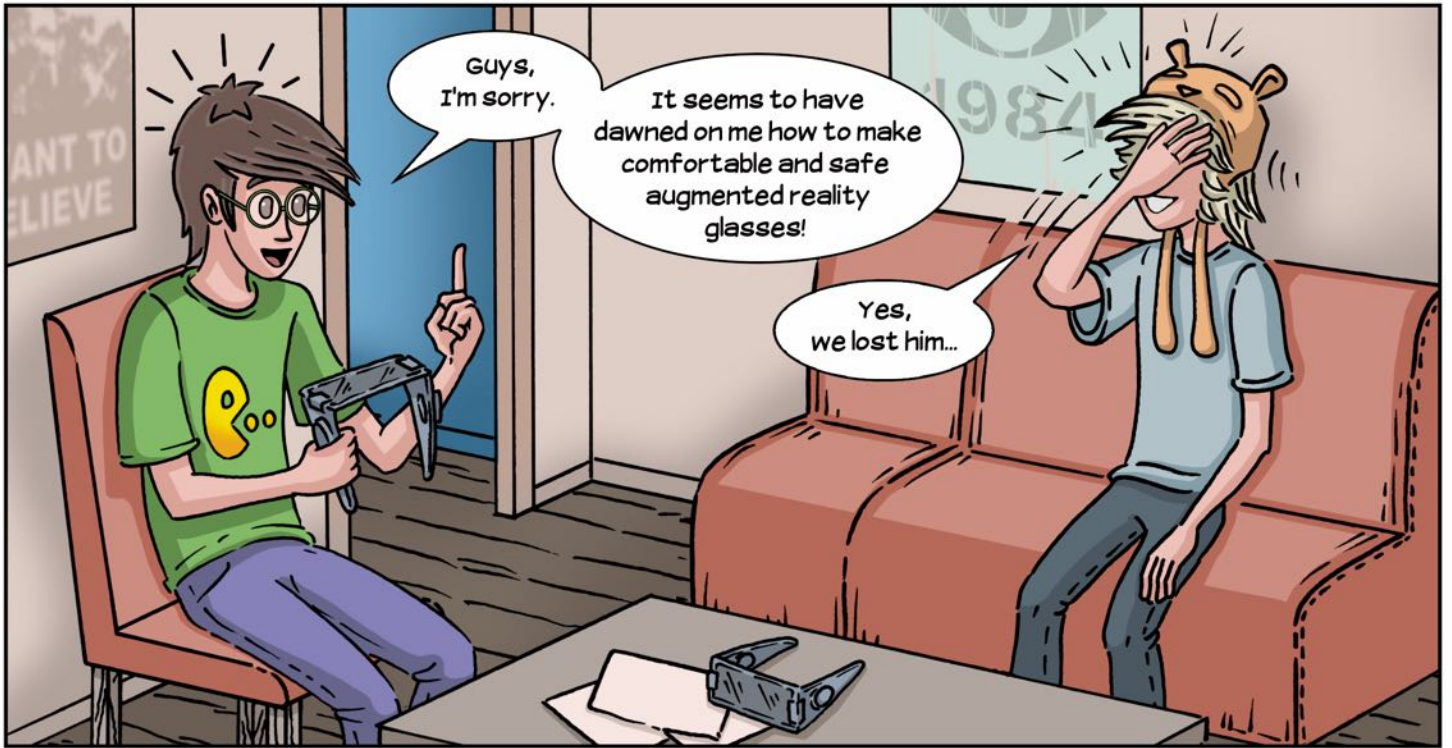

What an
adventure!
And I'm so hungry!

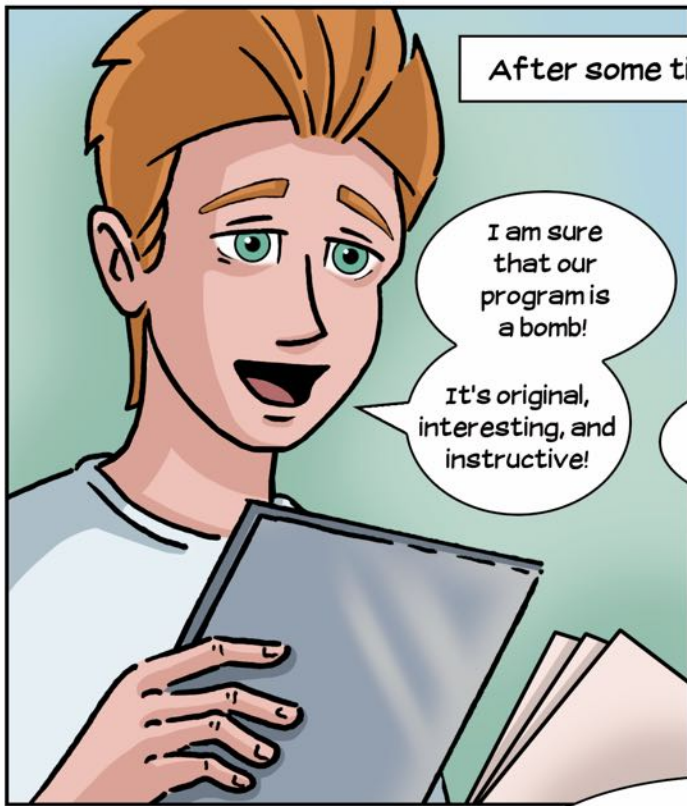

As always!
Lesyk needs
something to eat.

Taras, hey!
Are you with us?

After some time.

I am sure that our program is a bomb!

It's original, interesting, and instructive!

And Taras's new headset is very comfortable and, most importantly, does not glitch.

Yes, we did a good job.

And I'm grateful to my parents for supporting and financing the creation of this invention.

Have you already prepared an application for its registration?

Yes. The application, along with the description, formula, abstract, and drawings, is ready.

Tomorrow we are going to the IP office.

Maybe we should register our computer program, too.

It's protected as a literary work.

And although copyright arises from the moment it is created and does not require mandatory registration, I think there are more than enough advantages to register it.

Yes, it's a good idea!

It will help protect our business.

I'm all for it!

Lesyk, we need to register the trademark as well! So that our products can be recognized in the future.

Absolutely!

I already feel like a rich girl. We have so much intellectual property!

IP office.

Taras, are you coming or not?

Wait a little longer.

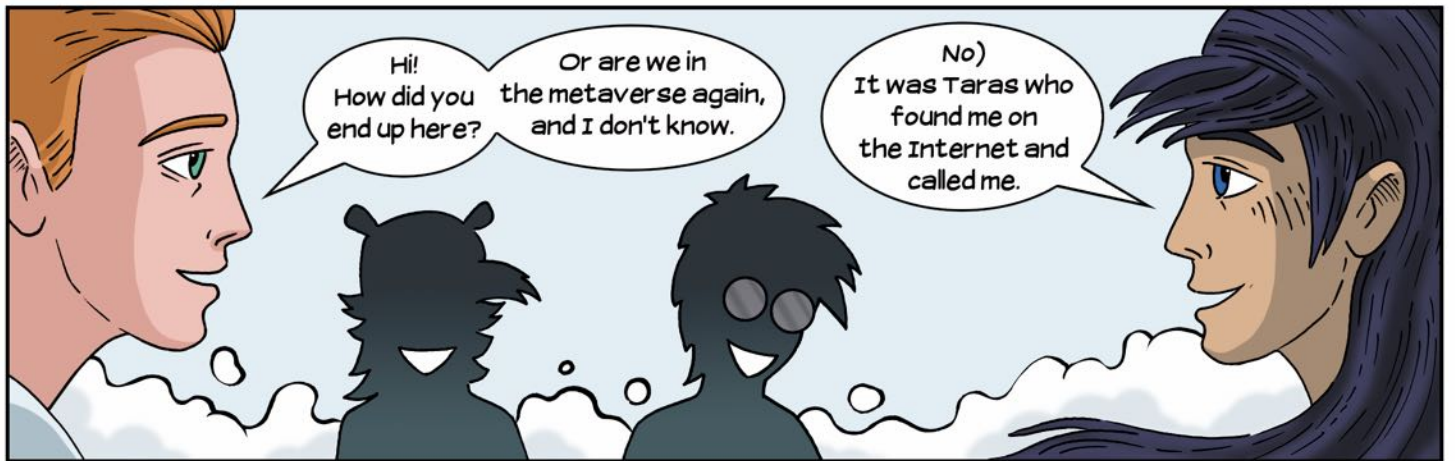

What to wait for?

Not what, but whom!
Hello, wandering
metaverse!

Melanka, is that you?
I can't believe it!

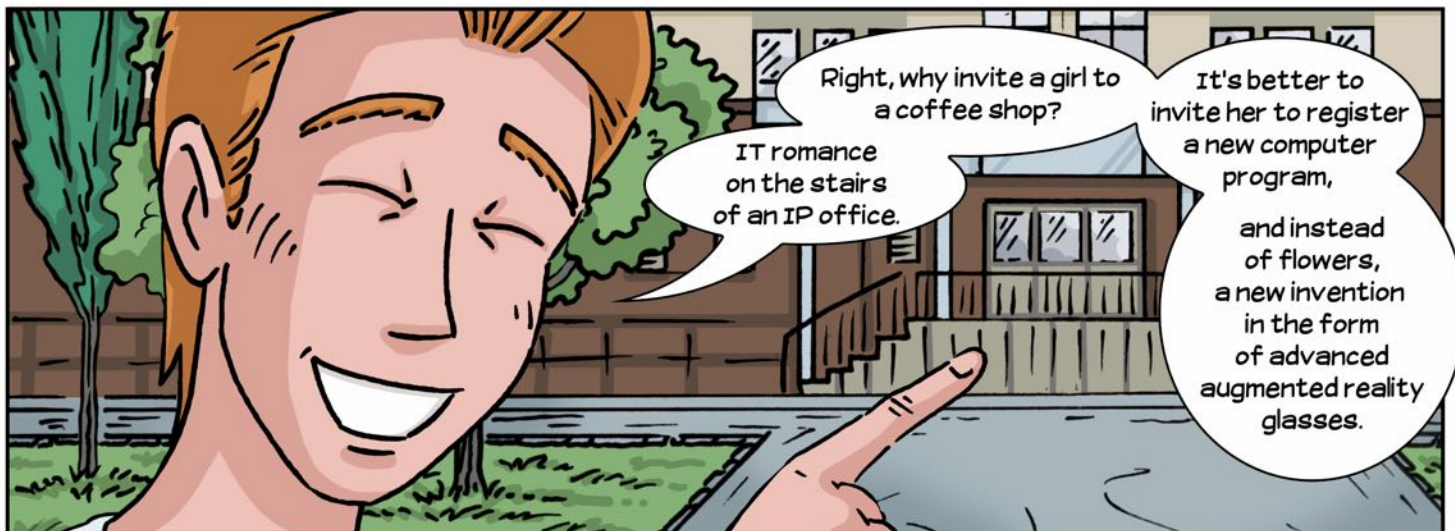

Hi!
How did you
end up here?

Or are we in
the metaverse again,
and I don't know.

No)
It was Taras who
found me on
the Internet and
called me.

Oh,
so it's a date?

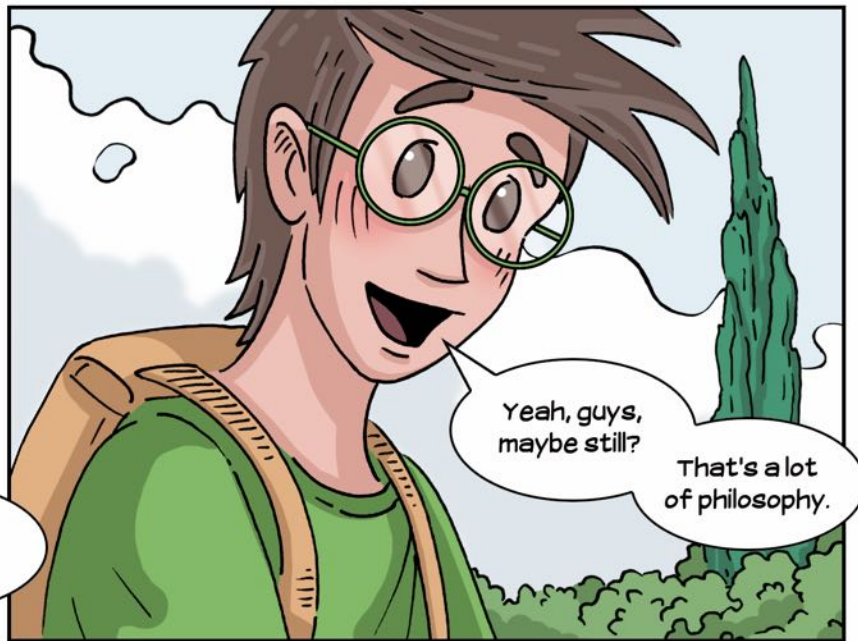

Right, why invite a girl to
a coffee shop?
IT romance
on the stairs
of an IP office.

It's better to
invite her to register
a new computer
program,
and instead
of flowers,
a new invention
in the form
of advanced
augmented reality
glasses.

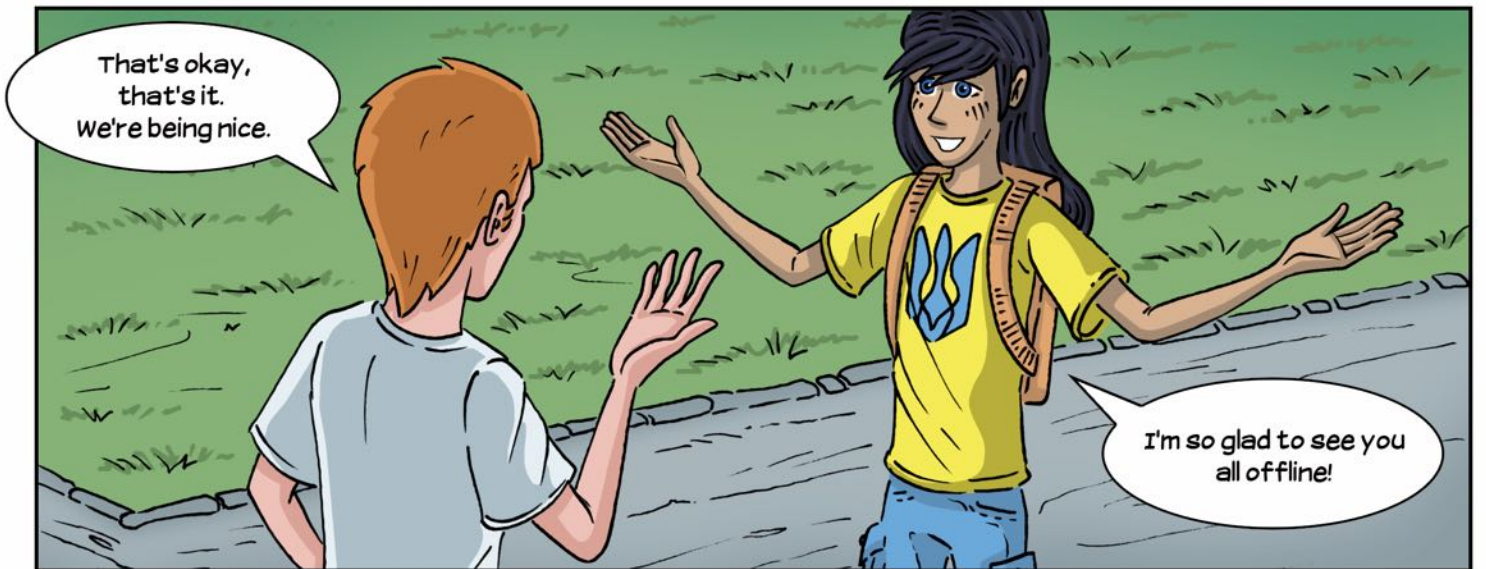

Yes,
it's love!

Yeah, guys,
maybe still?

That's a lot
of philosophy.

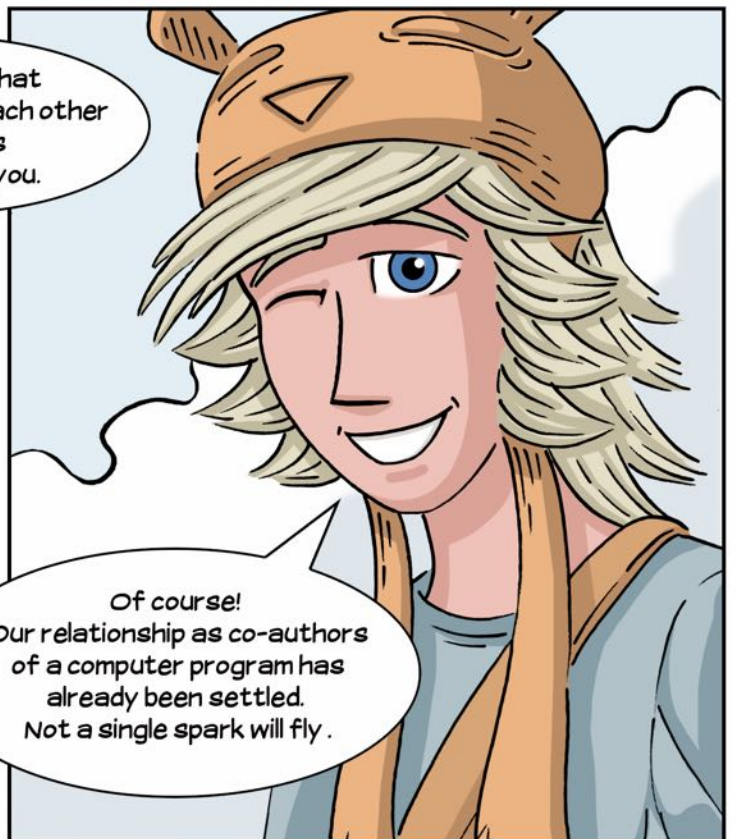

That's okay,
that's it.
We're being nice.

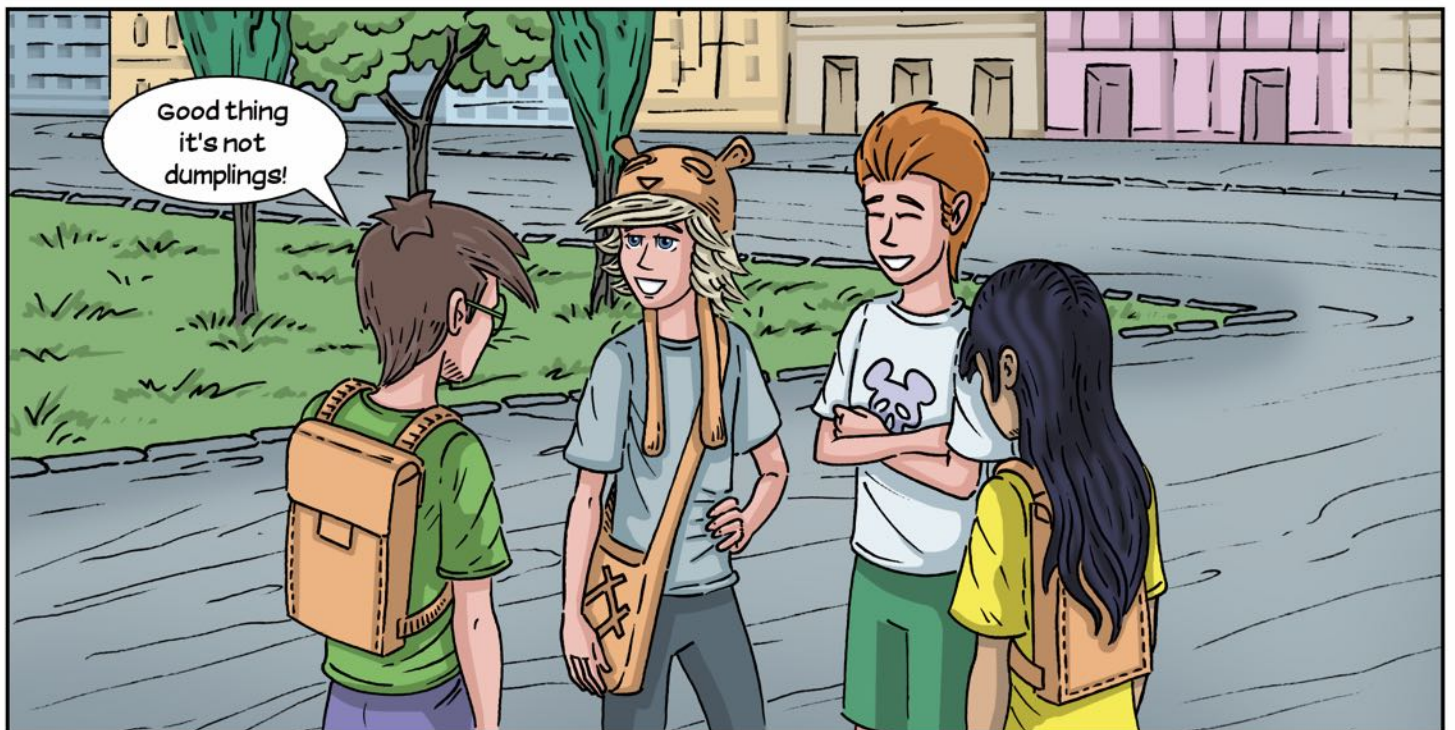

I'm so glad to see you
all offline!

And it's good that
you can really hug each other
and no one is
electrocuting you.

Of course!
Our relationship as co-authors
of a computer program has
already been settled.
Not a single spark will fly.

Implemented by:

This publication was made within the support of the international cooperation project ReACT4UA ("Utilization and Implementation of the Association Agreement between the EU and Ukraine in the field of trade"), that is financed by the German government and is implemented by the German federal company "Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH". The project aims to improve competitiveness and resilience of Ukrainian small and medium-sized enterprises, especially regarding EU markets accession.

The scenario and text were written by: Oleksandra Paduchak, Olha Dmytriv, Andrii Zozuliuk.

The entire design was made by: Yaroslav Zen
