LIFELONG EDUCATION: OPPORTUNITIES FOR CONTINUING EDUCATION IN THE INTELLECTUAL PROPERTY FIELD

Розповідаючи про можливості навчання інтелектуальній власності впродовж життя, ми прагнемо закласти основу для трансформації суспільства в таке, яке з дитинства цінує творчість, поважає права креаторів і винахідників. Освіта у цій сфері є потужним інструментом для виховання свідомих громадян, які розуміють унікальність інтелектуальної власності, її роль у розвитку інновацій та економіки, а також можливості її ефективної комерціалізації. Завдяки механізмам охорони інтелектуальної власності з'являється суперможливість перетворювати ідеї на глобальні проєкти, формувати цінність і розширювати горизонти людських досягнень. Саме тому освіта в цій галузі має стати частиною навчальних програм на всіх етапах, від шкільної лави до корпоративних тренінгів фахівців. Навчання інтелектуальній власності впродовж життя – це не лише про знання, а й про формування мислення, яке стимулює повагу до творців, сприяє економічному зростанню та забезпечує сталий розвиток суспільства. В Україні це свято було започатковане ще в 1994 році відзначається щороку в третю суботу вересня. І саме сьогодні ми з вами станемо частиною цієї захоплюючої подорожі у світ інновацій. Уявіть собі: хтось колись створив перший велосипед, комп'ютер чи навіть смачне морозиво! А сьогодні ми дізнаємося про одного з найвидатніших винахідників нашого часу - Стіва Джобса. Це людина, яка змогла змінити світ своїми ідеями, і зробила це через компанію, яку знають усі - Apple. Хочете дізнатися, як він це зробив? Тоді вирушаємо в цю неймовірну подорож разом!"
